

Lucky Casino made promotion of our company, Monte Carlo SBM Hotels & Casinos, arranging fake casino games for our clients in Warsaw.

We recommend this company as a reliable business partner.

The event has been done perfectly with an excellent quality of casino tables, a professional attitude and a good knowledge of different game issues.

Very good contact with management during setting details, flexibility and interesting ideas for events.

Lucky Casino is a good choice for execution of the order and it will be a pleasure to work again with them for future events!
